

XEROX

June 22, 1971

Dr. Joshua Lederberg
Department of Genetics
Stanford University Medical Center
Stanford, California 94305

Dear Josh:

When I received your inquiry regarding xeroradiography, I immediately passed it on to the group that works in this field. That part of the organization does not report to me so I was not able to give you an immediate response.

I am now off for Europe, but upon my return in mid-July I am assured that I will have an answer. I am as interested in the outcome as you are.

It was good to see you again during my visit to California even if it was for only a short while. I hope next time things will not be so rushed.

Sincerely yours,

Myron Tribus
Senior Vice President
Business Products Group
